A private fund managed by Dodge & Cox with proprietary assets was reorganized into the Dodge & Cox Global Bond Fund on April 30, 2014. Any Fund portfolio characteristics, performance, or attribution information for periods prior to May 1, 2014, are those of the private fund. Effective January 15, 2021, the benchmark was changed from the unhedged to the hedged version of the Bloomberg Global Aggregate Bond Index.

The Fund's total returns include the reinvestment of dividend and capital gain distributions, but have not been adjusted for any income taxes payable by shareholders on these distributions or on Fund share redemptions. Index returns include dividends and/or interest income but, unlike Fund returns, do not reflect fees or expenses. The Bloomberg Global Aggregate Bond Index is a widely recognized, unmanaged index of multi-currency, investment-grade fixed income securities. Bloomberg calculates a USD hedged return by applying one-month forward rates to seek to eliminate the effect of non-USD exposures.

Returns represent past performance and do not guarantee future results. Investment return and share price will fluctuate with market conditions, and investors may have a gain or loss when shares are sold. Fund performance changes over time and currently may be significantly lower than stated above. Performance is updated and published monthly. Before investing in any Dodge & Cox Fund, you should carefully consider the Fund's investment objectives, risks, and charges and expenses.
