

2017

Annual Report
December 31, 2017

Stock Fund

ESTABLISHED 1965

TICKER: DODGX

TO OUR SHAREHOLDERS

The Dodge & Cox Stock Fund had a total return of 18.3% for the year ended December 31, 2017, compared to a return of 21.8% for the S&P 500 Index.

MARKET COMMENTARY

U.S. equity markets continued to climb steadily during the fourth quarter, capping off a year of strong performance and low volatility. The S&P 500 reached an all-time high in mid-December and ended the year up nearly 22%. The period of sustained performance in U.S. equities since March 2009 is the second longest in U.S. history.

During 2017, U.S. growth stocks (the higher valuation portion of the equity market) outperformed value stocks (the lower valuation portion) by 17 percentage points overall.^(a) Companies in sectors and industries associated with technology (e.g., Information Technology, Internet Retail, Media) led the market. The “FAANG” growth stocks—Facebook, Amazon, Apple, Netflix, and Google—were particularly strong, accounting for 20% of the S&P 500’s total return. Within the traditional value sectors, Energy was a laggard despite an 18% increase in oil prices during the year. Dodge & Cox’s approach is value oriented, and the Fund outperformed the U.S. value investment universe by five percentage points.^(b) However, the outperformance of growth stocks had a negative impact on the Fund’s relative results versus the broad-based S&P 500.

Robust corporate earnings growth, sustained economic expansion, and rising interest rates were major factors influencing equity market returns. Anticipation of the new U.S. tax bill signed in December, which significantly reduces statutory corporate tax rates, also contributed. Economic data released during the fourth quarter was solid (e.g., the unemployment rate hit a 17-year low), suggesting the U.S. economy remains on a steady path.

INVESTMENT STRATEGY: FINDING OPPORTUNITIES IN

HEALTH CARE AND ENERGY

At Dodge & Cox, our strong price discipline is an essential component of our investment strategy. Investment returns hinge on the purchase price: a good company is not always a good investment if the starting valuation is too high. We seek to invest in companies with valuations that do not fully reflect prospects for the company and where our analysis suggests the possibility of more positive developments. We constantly weigh valuation against company fundamentals and re-evaluate our thinking as prices change.

In response to diverging valuations, we made a number of gradual portfolio adjustments during 2017. We trimmed selected Information Technology, Media, and Financials holdings that had performed strongly. The Fund’s largest sale was DXC Technology, the company formed through the merger of Hewlett Packard Enterprise’s services division and Computer Sciences Corporation. As a result of the Fund’s investment in Hewlett Packard Enterprise, the Fund received DXC shares in April 2017, and the stock performed strongly. While the CEO has an impressive track record of shareholder value creation, management’s three-year plan embedded high expectations for margin expansion and earnings growth. We questioned whether these targets, even if achieved, would be sustainable over the long term. These concerns, combined with DXC’s higher valuation, led us to sell the

stock (up 36% over the holding period). We redeployed these proceeds, and others, into more attractively valued companies in the Health Care and Energy sectors, where our long-term outlook is more positive than that of many other investors.

Health Care

In the Pharmaceuticals industry, we believe valuations are compelling, reflecting regulatory and pricing concerns. As a result of industry consolidation and higher market shares, pharmacy benefit managers have been able to exert increased pricing pressure on drug manufacturers. This trend could impact long-term profitability for pharmaceutical companies. Despite these challenges, the FDA has recently increased the pace of new drug approvals. Most of the Fund’s pharmaceutical company holdings feature durable franchises with significant barriers to entry and growth potential from new discoveries and expansion into emerging markets.

Based on our evaluation of the risks and opportunities, the portfolio has significant exposure to the Pharmaceuticals and Biotechnology industries (15.0% compared to 7.4% for the S&P 500^(c)). In 2017, we added tactically to several holdings (including Bristol Myers Squibb) as valuations became more attractive and initiated three new positions: Eli Lilly and GlaxoSmithKline, which are highlighted below, and Gilead Sciences (a biopharmaceutical company focused on treatments and research for HIV/AIDS and hepatitis).^(d)

Eli Lilly

During the second quarter of 2017, we initiated a position in Eli Lilly, a leading drug company focused on branded pharmaceuticals and animal health products. As the only pharmaceutical company with a presence across all major drug classes in the diabetes field, it has an advantage in contracting and marketing products. Until recently, Eli Lilly was losing market share to Novo Nordisk and Sanofi in the key area of diabetes classes, given its smaller emerging markets footprint and lack of a basal insulin therapy. This trend reversed as Eli Lilly launched several new products during the last few years, and the company is now gaining share in most therapeutic areas within diabetes. Eli Lilly’s partnership with Boehringer Ingelheim, where costs and profits are shared 50/50, has been important in rejuvenating its diabetes portfolio.

After weathering two recent patent expirations, Eli Lilly is entering what could be an extended period of growth. The company’s four new drugs should each generate over \$1 billion in annual sales. All of these recent product approvals have found commercial success and are driving future sales growth. If revenue grows as we expect, margins should improve significantly and boost earnings growth. The company has consistently had one of the better research and development (R&D) groups in the Pharmaceuticals industry due to its stable organization, thoughtful leadership, and high funding.

Most importantly, the company’s newly appointed CEO leads a competent management team that appears to be well aligned with the interests of long-term shareholders and capable of navigating competitive and regulatory risks. Eli Lilly was a 1.4% position in the portfolio on December 31.

GlaxoSmithKline

The Fund recently re-established a position in GlaxoSmithKline, after selling it in 2015. Based in the United Kingdom, the

company has leading therapeutic franchises in respiratory care and HIV. In addition to its traditional pharmaceuticals business, the company is diversified through strong and growing businesses in vaccines and over-the-counter consumer health.

In 2015, we sold GlaxoSmithKline based on market headwinds and a higher valuation. The company's pharmaceuticals business was suffering from pricing pressure on a key respiratory drug, Advair, and the pipeline of new drug launches was weak. The valuation, at 20 times forward earnings, was relatively expensive and did not sufficiently compensate for the risks. Some of those risks, including continued weakness in Advair sales, materialized, and the valuation declined after we sold the position.

In the second half of 2017, however, we built a position in GlaxoSmithKline again based on a more favorable fundamental long-term outlook and a lower valuation (12 times forward earnings). In the respiratory care division, declines in Advair sales should be offset by new drugs, aided by a new inhaler. The HIV segment is growing at healthy rates due to increased adoption of Dolutegravir, a drug that blocks an enzyme needed for HIV to replicate. Combined with continued growth in vaccines and consumer health, the company should achieve modest earnings growth. Meanwhile, the management team has also been revamped. The new CEO is focusing on renewing the pharmaceutical pipeline and has brought in a well-regarded head of R&D to lead that effort. Improvements in the drug pipeline will take time to manifest, but in the meantime, the company continues to generate stable cash flow and has an attractive 6% dividend yield. On December 31, GlaxoSmithKline was a 1.4% position in the Fund.

Energy

While Energy was the second-worst performing sector (down 1%) of the S&P 500 during 2017, we continue to believe Energy is an attractive area of the market. Global supply and demand fundamentals are supportive of higher oil prices. Demand growth in the developing world continues to be healthy, and the dearth of investment in new supply over the past few years should lead to a tighter balance. We conduct ongoing research to test our investment thesis and recently met with industry executives and experts in Houston and the Middle East. Our trips reaffirmed that development costs in U.S. shale oil are rising with more activity and that other global sources of new supply are likely needed to satisfy demand. Our research also reinforced the importance of investing in oil producers with assets on the low end of the cost curve and management teams that are investing counter-cyclically.

The Fund remains modestly overweight the Energy sector (7.8% compared to 6.1% for the S&P 500), primarily due to investments in the Energy Equipment & Services (Oil Services) industry and growing exposure to exploration and production (E&P) companies. Oil services companies are particularly appealing due to their strong franchises and ability to expand earnings as producers reinvest in projects to meet growing global demand. Given attractive valuations, we recently added to selected holdings, including Anadarko Petroleum (a leading global E&P company with strong operational capabilities) and Baker Hughes.

Baker Hughes, a GE Company

We have held Baker Hughes in the Fund since 1998, actively adding to and trimming from the position given relative valuation opportunities and changing fundamentals over the years. In July 2017, GE Oil & Gas completed its acquisition of Baker Hughes,

forming Baker Hughes GE (BHGE), now the second largest oilfield services company in the world after Schlumberger (also held in the Fund, 1.6% at year end). By combining oilfield services (Baker Hughes) and oilfield equipment (GE Oil & Gas) businesses, BHGE is the only company that serves the upstream, midstream, and downstream segments of the Oil, Gas, and Consumable Fuels industry.

Adjusting for the \$17.50 per share cash dividend the Fund received in July, the stock was weak in 2017. While oil service activity levels have started to rebound in North America due to the resurgence of U.S. shale oil, hopes for an international recovery have been delayed. During the second half of 2017, we added to BHGE given its lower valuation, earnings growth potential, diversified business model, and financial strength. Management is targeting a \$1.6 billion improvement in EBITDA, driven by 75% cost savings and 25% revenue synergies. BHGE has a long-term opportunity to increase its market share with its improved scale. BHGE's leadership position in compressors and turbines generates long-term service contracts with attractive recurring revenue, which should reduce downside volatility. In addition, the company has a healthy balance sheet and recently announced a \$3 billion share buyback. We believe BHGE provides attractive risk-reward diversification to the Fund's Energy portfolio. The company was a 1.0% position on December 31.

IN CLOSING

U.S. equity valuations are now at the high end of the historical range. While we have a tempered return outlook for the overall U.S. market, we are optimistic about the long-term prospects for the Fund's portfolio, which continues to trade at a significant discount to the market. On December 31, the Fund's portfolio of 66 companies traded at 16 times forward estimated earnings, compared to 20 times for the S&P 500.

As an active, value-oriented manager, we believe the valuation disparities that characterize the current market offer significant opportunities. Our fundamental, bottom-up, price-disciplined investment approach requires conviction and patience. Accordingly, maintaining a long-term investment horizon and staying the course are essential. We thank our fellow shareholders for your continued confidence in Dodge & Cox. As always, we welcome your comments and questions.

For the Board of Trustees,

Charles F. Pohl,
Chairman

Dana M. Emery,
President

January 30, 2018

- (a) The Russell 1000 Growth Index had a total return of 30.2% compared to 13.7% for the Russell 1000 Value Index during 2017.
- (b) The Dodge & Cox Stock Fund had a total return of 18.3% compared to 13.7% for the Russell 1000 Value Index during 2017.
- (c) Unless otherwise specified, all weightings and characteristics are as of December 31, 2017.
- (d) The use of specific examples does not imply that they are more or less attractive investments than the Fund's other holdings.

ANNUAL PERFORMANCE REVIEW

The Fund underperformed the S&P 500 by 3.5% percentage points in 2017.

Key Detractors from Relative Results

- Returns from holdings in the Energy sector (down 16% compared to down 1% for the S&P 500 sector), combined with a higher average weighting (8% versus 6%), detracted from results. Apache (down 32%), Baker Hughes (down 27%), and Anadarko Petroleum (down 23%) were weak.
- Relative results were hindered by the strong performance of several large internet and technology stocks not held by the Fund (e.g., Apple, Amazon, Facebook). The impact was significant in the Consumer Discretionary sector, where the Fund's holdings lagged meaningfully (up 13% compared to up 23% for the S&P 500 sector). In Information Technology, the Fund's underweight position and modest underperformance (up 36% compared to up 39% for the S&P 500 sector) hurt.
- Sprint (down 30%) also detracted.

Key Contributors to Relative Results

- The return for Wal-Mart (up 47%), the Fund's only holding in Consumer Staples, considerably outpaced the S&P 500 sector (up 13%).
- The Fund's lack of holdings in the Real Estate and Utilities sectors (up 11% and up 12%, respectively) aided relative results as these areas lagged the broader index.
- A number of individual holdings also contributed, including Alnylam Pharmaceuticals (up 239%), Cigna (up 52%), HP Inc. (up 46%), and several financial services companies, including American Express (up 36%), Bank of America (up 36%), and Charles Schwab (up 31%).

KEY CHARACTERISTICS OF DODGE & COX

Independent Organization

Dodge & Cox is one of the largest privately owned investment managers in the world. We remain committed to independence, with a goal of providing the highest quality investment management service to our existing clients.

Over 85 Years of Investment Experience

Dodge & Cox was founded in 1930. We have a stable and well-qualified team of investment professionals, most of whom have spent their entire careers at Dodge & Cox.

Experienced Investment Team

The U.S. Equity Investment Committee, which is the decision-making body for the Stock Fund, is an eight-member committee with an average tenure at Dodge & Cox of 24 years.

One Business with a Single Research Office

Dodge & Cox manages equity (domestic, international, and global), fixed income (domestic and global), and balanced investments, operating from one office in San Francisco.

Consistent Investment Approach

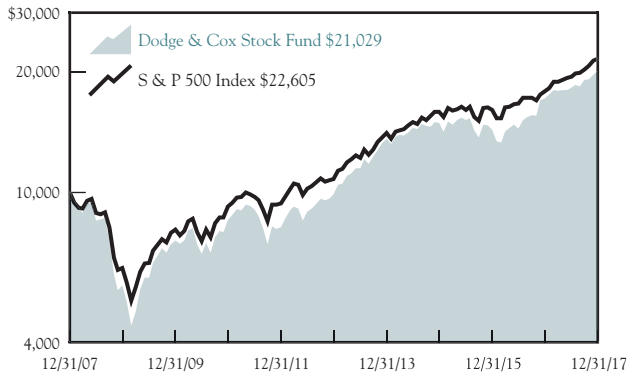

Our team decision-making process involves thorough, bottom-up fundamental analysis of each investment.

Long-Term Focus and Low Expenses

We invest with a three- to five-year investment horizon, which has historically resulted in low turnover relative to our peers. We manage Funds that maintain low expense ratios.

Risks: The Fund is subject to market risk, meaning holdings in the Fund may decline in value for extended periods due to the financial prospects of individual companies, or due to general market and economic conditions. Please read the prospectus and summary prospectus for specific details regarding the Fund's risk profile.

**GROWTH OF \$10,000 OVER 10 YEARS
FOR AN INVESTMENT MADE ON DECEMBER 31, 2007**

Returns represent past performance and do not guarantee future results. Investment return and share price will fluctuate with market conditions, and investors may have a gain or loss when shares are sold. Fund performance changes over time and currently may be significantly lower than stated. Performance is updated and published monthly. Visit the Fund’s website at dodgeandcox.com or call 800-621-3979 for current performance figures.

The Fund’s total returns include the reinvestment of dividend and capital gain distributions, but have not been adjusted for any income taxes payable by shareholders on these distributions or on Fund share redemptions. Index returns include dividends but, unlike Fund returns, do not reflect fees or expenses. The S&P 500 Index is a market capitalization-weighted index of 500 large-capitalization stocks commonly used to represent the U.S. equity market.

S&P 500 Index	21.83	15.79	8.50	7.20

FUND EXPENSE EXAMPLE

As a Fund shareholder, you incur ongoing Fund costs, including management fees and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The following example shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The example assumes a \$1,000 investment held for the six months indicated.

ACTUAL EXPENSES

The first line of the table below provides information about actual account values and expenses based on the Fund’s actual returns. You may use the information in this line, together with your account balance, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON WITH OTHER MUTUAL FUNDS

Information on the second line of the table can help you compare ongoing costs of investing in the Fund with those of other mutual funds. This information may not be used to estimate the actual ending account balance or expenses you paid during the period. The hypothetical “Ending Account Value” is based on the actual expense ratio of the Fund and an assumed 5% annual rate of return before expenses (not the Fund’s actual return). The amount under the heading “Expenses Paid During Period” shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other mutual funds.

Six Months Ended December 31, 2017	Beginning Account Value 7/1/2017	Ending Account Value 12/31/2017	Expenses Paid During Period*
Based on Actual Fund Return	\$1,000.00	\$1,108.10	\$2.74
Based on Hypothetical 5% Yearly Return	1,000.00	1,022.61	2.63

* Expenses are equal to the Fund’s annualized expense ratio of 0.52%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

The expenses shown in the table highlight ongoing costs only and do not reflect any transactional fees or account maintenance fees. Though other mutual funds may charge such fees, please note that the Fund does not charge transaction fees (e.g., redemption fees, sales loads) or universal account maintenance fees (e.g., small account fees).

In determining a company's country designation, the Fund generally references the country of incorporation. In cases where the Fund considers the country of incorporation to be a "jurisdiction of convenience" chosen primarily for tax purposes or in other limited circumstances, the Fund uses the country designation of an appropriate broad-based market index. In those cases, two countries are listed—the country of incorporation and the country designated by an appropriate index, respectively.

NOTE 1—ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Dodge & Cox Stock Fund (the “Fund”) is one of the series constituting the Dodge & Cox Funds (the “Trust” or the “Funds”). The Trust is organized as a Delaware statutory trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Fund commenced operations on January 4, 1965, and seeks long-term growth of principal and income. Risk considerations and investment strategies of the Fund are discussed in the Fund’s Prospectus.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require the use of estimates and assumptions by management. Actual results may differ from those estimates. Significant accounting policies are as follows:

Security valuation The Fund’s net assets are normally valued as of the scheduled close of trading on the New York Stock Exchange (NYSE), generally 4:00 p.m. Eastern Time, each day that the NYSE is open for business.

Portfolio holdings for which market quotes are readily available are valued at market value. Listed securities for example, are generally valued using the official quoted close price or the last sale on the exchange that is determined to be the primary market for the security. Exchange-traded derivatives are generally valued at the settlement price determined by the relevant exchange. Short-term securities less than 60 days to maturity may be valued at amortized cost if amortized cost approximates current value. Mutual funds are valued at their respective net asset values. Security values are not discounted based on the size of the Fund’s position and may differ from the value a Fund receives upon sale of the securities. All securities held by the Fund are denominated in U.S. dollars.

If market quotations are not readily available or if normal valuation procedures produce valuations that are deemed unreliable or inappropriate under the circumstances existing at the time, the investment will be valued at fair value as determined in good faith by or under the direction of the Fund’s Board of Trustees. The Board of Trustees has appointed Dodge & Cox, the Fund’s investment manager, to make fair value determinations in accordance with the Dodge & Cox Funds Valuation Policies (“Valuation Policies”), subject to Board oversight. Dodge & Cox has established a Pricing Committee that is comprised of representatives from Treasury, Legal, Compliance, and Operations. The Pricing Committee is responsible for implementing the Valuation Policies, including determining the fair value of securities and other investments when necessary. The Pricing Committee considers relevant indications of value that are reasonably available to it in determining the fair value assigned to a particular security, such as the value of similar financial instruments, trading volumes, contractual restrictions on disposition, related corporate actions, and changes in economic conditions. In doing so, the Pricing Committee employs various

methods for calibrating fair valuation approaches, including a regular review of key inputs and assumptions, back-testing, and review of any related market activity.

Valuing securities through a fair value determination involves greater reliance on judgment than valuation of securities based on readily available market quotations. In some instances, lack of information and uncertainty as to the significance of information may lead to a conclusion that a prior valuation is the best indication of a security’s value. When fair value pricing is employed, the prices of securities used by the Fund to calculate its net asset value may differ from quoted or published prices for the same securities.

Security transactions, investment income, expenses, and distributions Security transactions are recorded on the trade date. Realized gains and losses on securities sold are determined on the basis of identified cost.

Dividend income and corporate action transactions are recorded on the ex-dividend date, or when the Fund first learns of the dividend/corporate action if the ex-dividend date has passed. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Dividends characterized as return of capital for U.S. tax purposes are recorded as a reduction of cost of investments and/or realized gain. Interest income is recorded on the accrual basis.

Expenses are recorded on the accrual basis. Some expenses of the Trust can be directly attributed to a specific series. Expenses which cannot be directly attributed are allocated among the Funds in the Trust using methodologies determined by the nature of the expense.

Distributions to shareholders are recorded on the ex-dividend date.

Repurchase agreements Repurchase agreements are transactions under which a Fund purchases a security from a dealer counterparty and agrees to resell the security to that counterparty on a specified future date at the same price, plus a specified interest rate. The Fund’s repurchase agreements are secured by U.S. government or agency securities. It is the Fund’s policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. In the event of default by the counterparty, the Fund has the contractual right to liquidate the collateral securities and to apply the proceeds in satisfaction of the obligation.

Foreign taxes The Fund may be subject to foreign taxes which may be imposed by certain countries in which the Fund invests. The Fund endeavors to record foreign taxes based on applicable foreign tax law. Withholding taxes are incurred on certain foreign dividends and are accrued at the time the associated dividend is recorded. The Fund files withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. The Fund records a reclaim receivable based on, among other things, a jurisdiction’s legal obligation to pay reclaims as well as payment history and market convention. In consideration of recent decisions rendered by

NOTES TO FINANCIAL STATEMENTS

European courts, the Fund has filed for additional reclaims related to prior years. A corresponding receivable is established when both the amount is known and significant contingencies or uncertainties regarding collectability are removed. These amounts, if any, are reported in “dividends and interest receivable” in the Statement of Assets and Liabilities.

Futures contracts Futures contracts involve an obligation to purchase or sell (depending on whether the Fund has entered a long or short futures contract, respectively) an asset at a future date, at a price set at the time of the contract. Upon entering into a futures contract, the Fund is required to deposit an amount of cash or liquid assets (referred to as initial margin) in a segregated account with the clearing broker. Subsequent payments (referred to as variation margin) to and from the clearing broker are made on a daily basis based on changes in the market value of futures contracts. Futures contracts are traded publicly and their market value changes daily. Changes in the market value of open futures contracts are recorded as unrealized appreciation or depreciation in the Statement of Operations. Realized gains and losses on futures contracts are recorded in the Statement of Operations at the closing or expiration of the contracts. Cash deposited with a broker as initial margin is recorded in the Statement of Assets and Liabilities. A receivable and/or payable to brokers for daily variation margin is also recorded in the Statement of Assets and Liabilities.

Investments in futures contracts may include certain risks, which may be different from, and potentially greater than, those of the underlying securities. To the extent the Fund uses futures, it is exposed to additional volatility and potential losses resulting from leverage.

The Fund has maintained long S&P 500 futures contracts to provide equity exposure that approximates the Fund’s “net cash and other” position, which includes cash, short-term investments, receivables, and payables. During the year ended December 31, 2017, these S&P 500 futures contracts had notional values ranging from 1% to 3% of net assets.

Indemnification Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, in the normal course of business the Trust enters into contracts that provide general indemnities to other parties. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

NOTE 2—VALUATION MEASUREMENTS

Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

- Level 1: Quoted prices in active markets for identical securities
- Level 2: Other significant observable inputs (including quoted prices for similar securities, market indices, interest rates, credit risk, forward exchange rates, etc.)

- Level 3: Significant unobservable inputs (including Fund management’s assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund’s holdings at December 31, 2017:

Classification ^(a)	LEVEL 1 (Quoted Prices)	LEVEL 2 (Other Significant Observable Inputs)
Securities		
Common Stocks ^(b)	\$69,914,786,241	\$ —
Short-term Investments		
Repurchase Agreement	—	1,043,990,000
Money Market Fund	71,533,869	—
Total Securities	<u>\$69,986,320,110</u>	<u>\$1,043,990,000</u>
Other Investments		
Futures Contracts		
Appreciation	\$ 11,322,953	\$ —

^(a) There were no transfers between Level 1 and Level 2 during the year ended December 31, 2017. There were no Level 3 securities at December 31, 2017 and 2016, and there were no transfers to Level 3 during the year.

^(b) All common stocks held in the Fund are Level 1 securities. For a detailed break-out of common stocks by major industry classification, please refer to the Portfolio of Investments.

NOTE 3—RELATED PARTY TRANSACTIONS

Management fees Under a written agreement approved by a unanimous vote of the Board of Trustees, the Fund pays a management fee monthly at an annual rate of 0.50% of the Fund’s average daily net assets to Dodge & Cox, investment manager of the Fund. The agreement further provides that Dodge & Cox shall waive its fee to the extent that such fee plus all other ordinary operating expenses of the Fund exceed 0.75% of the average daily net assets for the year.

Fund officers and trustees All officers and two of the trustees of the Trust are officers or employees of Dodge & Cox. The Trust pays a fee only to those trustees who are not affiliated with Dodge & Cox.

NOTE 4—INCOME TAX INFORMATION AND DISTRIBUTIONS TO SHAREHOLDERS

A provision for federal income taxes is not required since the Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and distribute all of its taxable income to shareholders. Distributions are determined in accordance with income tax regulations, and such amounts may differ from net investment income and realized gains for financial reporting purposes. Financial reporting records are adjusted for permanent book to tax differences at year end to reflect tax character.

Book to tax differences are primarily due to differing treatments of redemptions in-kind, wash sales, net short-term realized gain (loss), certain dividends, and derivatives. At December 31, 2017, the cost of

NOTES TO FINANCIAL STATEMENTS

investments in securities and derivatives for federal income tax purposes was \$44,608,190,016.

Distributions during the years noted below were characterized as follows for federal income tax purposes:

	Year Ended December 31, 2017	Year Ended December 31, 2016
Ordinary income	\$ 1,232,159,263 (\$3.636 per share)	\$ 1,056,249,886 (\$3.183 per share)
Long-term capital gain	\$ 3,428,481,154 (\$10.173 per share)	\$ 2,918,315,039 (\$8.899 per share)

At December 31, 2017, the tax basis components of distributable earnings were as follows:

Unrealized appreciation	\$27,903,350,926
Unrealized depreciation	(1,469,907,879)
Net unrealized appreciation	26,433,443,047
Undistributed ordinary income	23,926,831
Undistributed long-term capital gain	703,938,909

Fund management has reviewed the tax positions for open periods (three years and four years, respectively, from filing the Fund's Federal and State tax returns) as applicable to the Fund, and has determined that no provision for income tax is required in the Fund's financial statements.

NOTE 5—REDEMPTIONS IN-KIND

During the year ended December 31, 2017, the Fund distributed securities and cash as payment for a redemption of Fund shares. For financial reporting purposes, the Fund realized a net gain of \$184,889,371 attributable to the redemption in-kind: \$163,481,605 from unaffiliated issuers and \$21,407,766 from affiliated issuers. For tax purposes, no capital gain on the redemption in-kind was recognized.

NOTE 6—LOAN FACILITIES

Pursuant to an exemptive order issued by the Securities and Exchange Commission (SEC), the Fund may participate in an interfund lending facility (Facility). The Facility allows the Fund to borrow money from or loan money to the Funds. Loans under the Facility are made for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest on borrowings is the average of the current repurchase agreement rate and the bank loan rate. There was no activity in the Facility during the year.

All Funds in the Trust participate in a \$500 million committed credit facility (Line of Credit) with State Street Bank and Trust Company, to be utilized for temporary or emergency purposes to fund shareholder redemptions or for other short-term liquidity purposes. The maximum amount available to the Fund is \$250 million. Each Fund pays an annual commitment fee on its pro-rata portion of the Line of Credit. For the year ended December 31, 2017, the Fund's commitment fee amounted to

\$421,447 and is reflected as a Miscellaneous Expense in the Statement of Operations. Interest on borrowings is charged at the prevailing rate. There were no borrowings on the Line of Credit during the year.

NOTE 7—PURCHASES AND SALES OF INVESTMENTS

For the year ended December 31, 2017, purchases and sales of securities, other than short-term securities, aggregated \$9,140,669,841 and \$8,602,292,192, respectively.

NOTE 8—SUBSEQUENT EVENTS

Fund management has determined that no material events or transactions occurred subsequent to December 31, 2017, and through the date of the Fund's financial statements issuance, which require additional disclosure in the Fund's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 9—HOLDINGS OF 5% VOTING SECURITIES

Each of the companies listed below was considered to be an affiliate of the Fund because the Fund owned 5% or more of the company's voting securities during all or part of the year ended December 31, 2017. Transactions during the year in these securities were as follows:

	Shares at Beginning of Year	Additions	Reductions	Shares at End of Year	Dividend Income ^(a)	Realized Gain (Loss)	Net Change in Unrealized Appreciation/ Depreciation	Value at End of Year

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of the Dodge & Cox Funds and Shareholders of Dodge & Cox Stock Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Dodge & Cox Stock Fund (one of the funds constituting Dodge & Cox Funds, referred to hereafter as the “Fund”) as of December 31, 2017, the related statement of operations for the year ended December 31, 2017, the statement of changes in net assets for each of the two years in the period ended December 31, 2017, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2017 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2017 and the financial highlights for each of the five years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP
San Francisco, California
February 16, 2018

We have served as the auditor of one or more investment companies in the Dodge & Cox Funds since 1931.

SPECIAL 2017 TAX INFORMATION

(unaudited)

The following information is provided pursuant to provisions of the Internal Revenue Code:

The Fund designates up to a maximum amount of \$1,421,082,251 of its distributions paid to shareholders in 2017 as qualified dividends (treated for federal income tax purposes in the hands of shareholders as taxable at a maximum rate of 20%).

For shareholders that are corporations, the Fund designates 90% of its ordinary dividends paid to shareholders in 2017 as dividends from domestic corporations eligible for the corporate dividends received deduction, provided that the shareholder otherwise satisfies applicable requirements to claim that deduction.

BOARD APPROVAL OF FUNDS' INVESTMENT MANAGEMENT AGREEMENTS AND MANAGEMENT FEES

(unaudited)

The Board of Trustees is responsible for overseeing the performance of the Dodge & Cox Funds' investment manager and determining whether to continue the Investment Management Agreements between the Funds and Dodge & Cox each year (the "Agreements"). At a meeting of the Board of Trustees of the Trust held on December 14, 2017, the Trustees, by a unanimous vote (including a separate vote of those Trustees who are not "interested persons" (as defined in the Investment Company Act of 1940) (the "Independent Trustees")), approved the renewal of the Agreements for an additional one-year term through December 31, 2018 with respect to each Fund. During the course of the year, the Board received extensive information and materials relating to the investment management and administrative services provided by Dodge & Cox and the performance of each of the Funds.

INFORMATION RECEIVED

In 2016 and 2017, the Board requested, received, and discussed a number of special presentations on topics relevant to their consideration of the proposed renewal of the Funds' Agreements. In addition to the foregoing and in advance of the meetings referred to below, the Board, including the Independent Trustees, requested, received, and reviewed materials relating to the Agreements and the services provided by Dodge & Cox. The Independent Trustees retained Morningstar to prepare an independent expense and performance summary for each Fund and comparable funds managed by other advisers identified by Morningstar. The Morningstar materials included information regarding advisory fee rates, expense ratios, and transfer agency, custodial, and distribution expenses, as well as performance comparisons to each Fund's peer group and to a broad-based securities index or combination of indices. The Morningstar materials also included a comparison of expenses of various share classes offered by comparable funds. The materials reviewed by the Board contained information concerning, among other things, Dodge & Cox's profitability, financial results and condition, advisory fee revenue, and separate account fee schedules. The Board additionally considered the Funds' brokerage commissions,

turnover rates, sales and redemption data, and the significant investment that Dodge & Cox makes in research used in managing the Funds. The Board received and reviewed memoranda and related materials addressing, among other things, Dodge & Cox's services to the Funds; how Dodge & Cox Funds' fees compare to fees of peer group funds; the different fees, services, costs, and risks associated with other accounts managed by Dodge & Cox as compared to the Dodge & Cox Funds; and the ways in which the Funds realize economies of scale. Throughout the process of reviewing the services provided by Dodge & Cox and preparing for the meeting, the Independent Trustees found Dodge & Cox to be open, forthright, detailed, and very helpful in answering questions about all issues. The Board received copies of the Agreements and a memorandum from the independent legal counsel to the Independent Trustees discussing the factors generally regarded as appropriate to consider in evaluating advisory arrangements. The Trust's Contract Review Committee, consisting solely of Independent Trustees, met with the independent legal counsel on November 9, 2017 and again on December 14, 2017 to discuss whether to renew the Agreements. The Board, including the Independent Trustees, subsequently concluded that the existing Agreements are fair and reasonable and voted to approve the Agreements. In considering the Agreements, the Board, including the Independent Trustees, did not identify any single factor or particular information as all-important or controlling. In reaching the decision to approve the Agreements, the Board considered several factors, discussed below, to be key factors and reached the conclusions described below.

NATURE, QUALITY, AND EXTENT OF THE SERVICES

The Board considered that Dodge & Cox provides a wide range of services to the Funds in addition to portfolio management. The extensive nature of services provided by Dodge & Cox has been documented in materials provided to the Board and in presentations made to the Board throughout the year. In particular, the Board considered the nature, quality, and extent of portfolio management, administrative, and shareholder services performed by Dodge & Cox. With regard to portfolio management services, the Board considered Dodge & Cox's established long-term history of care and conscientiousness in the management of the Funds; its demonstrated consistency in investment approach and depth; the background and experience of the Dodge & Cox U.S. Equity Investment Committee, International Equity Investment Committee, Global Equity Investment Committee, U.S. Fixed Income Investment Committee, and Global Fixed Income Investment Committee, and research analysts responsible for managing the Funds; Dodge & Cox's methods for assessing the regulatory and investment climate in various jurisdictions; its overall high level of attention to its core investment management function; and its commitment to the Funds and their shareholders. The Board also considered analysis provided by Morningstar regarding the degree of active management in the Dodge & Cox equity funds and concluded that Dodge & Cox is an active, high conviction manager of equity portfolios, not a "closet index" manager.

In the area of administrative and shareholder services, the Board considered the quality of Dodge & Cox's work in areas such as compliance, legal services, trading, operations, proxy voting, technology, oversight of the Funds' transfer agent and custodian/fund accounting agent, tax compliance, risk management, shareholder support, and shareholder communication through its website and other means. The Board also noted Dodge & Cox's disclosure policy, its compliance record, and its reputation as a trusted, shareholder-friendly mutual fund family.

In addition, the Board considered that Dodge & Cox manages approximately \$200 billion in Fund assets with fewer professionals than most comparable funds, and that on average these professionals have more experience and longer tenure than investment professionals at comparable funds. The Board also noted that Dodge & Cox is an investment research-oriented firm with no other business endeavors to distract management's attention from its research efforts or to present material conflicts of interest with the operations of the Funds, that its investment professionals adhere to a consistent investment approach across the Funds, and that due to its careful and deliberate strategy with respect to new products, Dodge & Cox has had remarkable stability in its mutual fund product offerings over the course of the past 87 years and has the fewest funds of any of the 25 largest mutual fund families by assets. The Board further considered the "Gold" analyst rating awarded by Morningstar to all of the Funds (other than the Global Bond Fund). The Board concluded that it was satisfied with the nature, extent, and quality of investment management and other services provided to the Funds by Dodge & Cox.

INVESTMENT PERFORMANCE

The Board considered short-term and long-term investment performance for each Fund (including periods of outperformance or underperformance) as compared to both relevant indices and the performance of such Fund's peer group. In assessing the performance of the Funds, the Board considered the Funds' investment returns over various periods and the volatility thereof and concluded that the levels experienced were consistent with Dodge & Cox's long-term approach and active investment style. The Board determined after extensive review and inquiry that Dodge & Cox's historic, long-term, team-oriented, bottom-up investment approach remains consistent and that Dodge & Cox continues to be distinguished by its integrity, transparency, and independence. The Board considered that the performance of the Funds is the result of a value-oriented investment management process that emphasizes a long-term investment horizon, comprehensive independent research, a team approach, price discipline, low cost, and low portfolio turnover. The Board also considered that the investment performance delivered by Dodge & Cox to the Funds appeared to be consistent with the relevant performance delivered for other clients of Dodge & Cox. The Board concluded that Dodge & Cox has delivered favorable long-term performance for Fund investors consistent with the long-term investment strategies being pursued by the Funds.

COSTS AND ANCILLARY BENEFITS

Costs of Services to Funds: Fees and Expenses. The Board considered each Fund's management fee rate and expense ratio relative to each Fund's peer group and relative to management fees charged by Dodge & Cox to other clients. In particular, the Board considered that the Funds continue to be below their peer group median in expense ratios and that many media and industry reports specifically comment on the low cost of the Funds, which have been a defining characteristic of the Funds for many years. The Board also evaluated the operating structures of the Funds and Dodge & Cox, noting that the Funds do not charge front-end sales commissions or distribution fees, and Dodge & Cox bears, among other things, the significant cost of third party research, reimbursement for shareholder recordkeeping and administrative costs to third-party retirement plan administrators, and administrative and office overhead. The Board noted that expenses are well below industry averages.

When compared to peer group funds, the Funds are in the quartile with the lowest expense ratios. The Board also considered that the Funds receive numerous administrative, regulatory compliance, legal, operational, technology, tax compliance, risk management, and shareholder support services from Dodge & Cox without any additional administrative fee and that the Funds have relatively low transaction costs and portfolio turnover rates. The Board noted the Funds' unusual single-share-class structure and reviewed Morningstar data (including asset-weighted average expense ratios) showing that the few peer group funds with lower expense ratios often have other share classes with significantly higher expense ratios than the Funds'. In this regard, the Board considered that many of the Funds' shareholders would not be eligible to purchase comparably priced shares of many peer group funds, which typically make their lower-priced share classes available only to institutional investors. The Board determined that the Funds provide access for small investors to high quality investment management at a relatively low cost. The Board also considered that the Funds are priced to scale, i.e., management fee rates begin at relatively low levels with the result that, even without breakpoints, the Funds' management fee rates are lower than those of many peer funds whose fee schedules include breakpoints. With respect to non-U.S. funds sponsored and managed by Dodge & Cox that are comparable to the Funds in many respects, the Board noted that the fee rates charged by Dodge & Cox are the same as or higher than the fee rates charged to the Funds.

The Board reviewed information regarding the fee rates Dodge & Cox charges to separate accounts that have investment programs similar to those of the Funds, including instances where separate account fees are lower than Fund fees. The Board considered the significant differences in the nature and scope of services Dodge & Cox provides to the Funds as compared to other client accounts, as well as material differences in regulatory, litigation, and other risks as between Dodge & Cox Funds and other types of clients. The Board noted that different markets exist for mutual fund and institutional separate account management services and that a comparison of Fund fee rates and separate

account fee rates must consider the fact that separate account clients bear additional costs and responsibilities that are included in the cost of a Fund. The Board further noted that many sophisticated institutional investors in the Funds that are eligible to open separate accounts at Dodge & Cox have decided for various reasons to invest in the Funds. After consideration of these matters, the Board concluded that the overall costs incurred by the Funds for the services they receive (including the management fee paid to Dodge & Cox) are reasonable and that the fees are acceptable based upon the qualifications, experience, reputation, and performance of Dodge & Cox and the low overall expense ratios of the Funds.

Profitability and Costs of Services to Dodge & Cox; “Fall-out” Benefits. The Board reviewed reports of Dodge & Cox’s financial position, profitability, and estimated overall value and considered Dodge & Cox’s overall profitability within its context as a private, employee-owned S-Corporation and relative to the favorable services provided. The Board noted in particular that Dodge & Cox’s profits are not generated by high fee rates, but reflect an extraordinarily streamlined, efficient, and focused business approach toward investment management.

The Board recognized the importance of Dodge & Cox’s profitability—which is derived solely from management fees and does not include other business ventures—to maintain its independence, stability, company culture and ethics, and management continuity. The Board also considered that the compensation/profit structure at Dodge & Cox includes a return on shareholder employees’ investment in the firm, which is vital for remaining independent and facilitating retention of management and investment professionals. The Board also considered that in January 2015, Dodge & Cox closed the International Stock Fund to new investors to proactively manage the growth of the Fund. The Stock Fund and Balanced Fund were similarly closed to new investors during periods of significant growth in the past. While these actions are intended to benefit existing Fund shareholders, the effect is to reduce potential revenues to Dodge & Cox from new shareholders.

The Board also considered potential “fall-out” benefits (including the receipt of research from unaffiliated brokers and reputational benefits to non-U.S. funds sponsored and managed by Dodge & Cox) that Dodge & Cox might receive as a result of its association with the Funds and determined that they are acceptable. The Board also noted that Dodge & Cox continues to invest substantial sums in its business in order to provide enhanced services, systems, and research capabilities, all of which benefit the Funds. The Board concluded that Dodge & Cox’s profitability is the keystone of its independence, stability, and long-term investment performance and that the profitability of Dodge & Cox’s relationship with the Funds (including fall-out benefits) is fair and reasonable.

ECONOMIES OF SCALE

The Board considered whether there have been economies of scale with respect to the management of each Fund, whether the Funds have appropriately benefited from any economies of scale, and

whether the management fee rate is reasonable in relation to the level of Fund assets and any economies of scale that may exist. In the Board’s view, any consideration of economies of scale must take account of the Funds’ low fee and expense structure and of the fact that each Fund’s shareholders have benefited from the Fund’s relatively low fee structure from the time of each Fund’s inception (i.e., from the first dollar). An assessment of economies of scale must also take into account that Dodge & Cox invests significant time and resources in each new Fund for months (and sometimes years) prior to launch; in addition, in a Fund’s early periods of operations, expenses are capped, which means that Dodge & Cox subsidizes the operations of a new Fund for a period of time until it reaches scale. The Board also observed that, while total Fund assets have grown significantly over the long term, this growth has not been continuous or evenly distributed across all of the Funds (for example, the total assets of the Balanced Fund have actually declined over the past ten years).

In addition, the Board noted that Dodge & Cox has shared the benefits of economies of scale with the Funds by adding and enhancing services to the Funds over time, and that Dodge & Cox’s internal costs of providing investment management, technology, administrative, legal, and compliance services to the Funds continue to increase. For example, Dodge & Cox has increased its global research staff and investment resources over the years to add important new capabilities for the benefit of Fund shareholders and to address the increased complexity of investing in multinational and non-U.S. companies. In addition, Dodge & Cox has made substantial expenditures in other staff, technology, and infrastructure to enable it to integrate credit and equity analyses and to implement its strategy in a more effective and secure manner. Over the last ten years, Dodge & Cox has increased its spending on research, investment management, client servicing, cybersecurity, technology, third party research, data services, and computer systems for trading, operations, compliance, accounting, and communications at a rate that has significantly outpaced the Funds’ growth rate during the same period. The Board considered that Dodge & Cox has a history of voluntarily limiting asset growth in several Funds that experienced significant inflows by closing them to new investors in order to protect the Funds’ ability to achieve good investment returns for shareholders. The Board also observed that, even without fee breakpoints, the Funds are competitively priced in a very competitive market and that having a low fee from inception is better for shareholders than starting with a higher fee and adding breakpoints. The Board also noted that there are certain diseconomies of scale associated with managing large funds, insofar as certain of the costs and risks associated with portfolio management increase as assets grow. The Board concluded that the current Dodge & Cox fee structure is fair and reasonable and adequately shares economies of scale that may exist.

CONCLUSION

Based on their evaluation of all material factors and assisted by the advice of independent legal counsel to the Independent Trustees, the Board, including the Independent Trustees, concluded that the advisory fee structure was fair and reasonable, that each Fund was paying a competitive fee for the services provided, that Dodge & Cox's services have provided value for Fund shareholders over the long term, and that approval of the Agreements was in the best interests of each Fund and its shareholders.

FUND HOLDINGS

The Fund provides a complete list of its holdings four times each fiscal year, as of the end of each quarter. The Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-CSR (second and fourth quarters) and Form N-Q (first and third quarters). Shareholders may view the Fund's Forms N-CSR and N-Q on the SEC's website at sec.gov. Forms N-CSR and N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling 800-SEC-0330. A list of the Fund's quarter-end holdings is also available at dodgeandcox.com on or about 15 days following each quarter end and remains available on the website until the list is updated in the subsequent quarter.

PROXY VOTING

For a free copy of the Fund's proxy voting policies and procedures, please call 800-621-3979, visit the Fund's website at dodgeandcox.com, or visit the SEC's website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ending June 30 is also available at dodgeandcox.com or at sec.gov.

HOUSEHOLD MAILINGS

The Fund routinely mails shareholder reports and summary prospectuses to shareholders and, on occasion, proxy statements. In order to reduce the volume of mail, when possible, only one copy of these documents will be sent to shareholders who are part of the same family and share the same residential address.

If you have a direct account with the Funds and you do not want the mailing of shareholder reports and summary prospectuses combined with other members in your household, contact the Funds at 800-621-3979. Your request will be implemented within 30 days.

DODGE & COX FUNDS—EXECUTIVE OFFICER & TRUSTEE INFORMATION
